## EDUCATION

**Raj Kumar Goel Institue Of Technology**                                           Sep 2021 - May 2025
*B.Tech Computer Science and Engineering*

**Intermediate**                                                                                      2021
*Central Board Of Secondary Education*

**Matriculation**                                                                                    2019
*Central Board Of Secondary Education*

## SKILLS

**Languages**: Java, C, JavaScript, HTML/CSS, SQL
**Frameworks**: React.js, Express.js
**Developer Tools**: VS Code, Github
**Technologies**: Talwind,Bootstrap,Canva , MongoDB
**Coursework**: Data Structure Algorithm, Object Oriented Programming, DBMS

## EXPERIENCE

**SoftAge - Prompt Engineer Intern** | *Feb 2024 – May 2024*
- Developed and optimized AI training prompts to enhance the performance of the Perplexity model, resulting in improved language understanding and model efficiency.Conducted A/B testing to assess prompt effectiveness and ensure optimal model learning outcomes.
- Maintained a prompt library with proper documentation and version control for streamlined AI model training.

## PROJECTS

**Weather Prediction App** | *VS Code, HTML/CSS, JavaScript*                         2022
- Developed a weather prediction app that provides real-time weather conditions and forecasts for any location using a public API.
- Designed a clean, responsive user interface for seamless use across multiple devices, enhancing user experience.

**Lytspeed - Real-time Messaging Website** | *Google Firebase, HTML/CSS, React JS, PHP, VS Code*   2023
- Developed a real-time messaging platform with Google Firebase for authentication and hosting.Used React JS, Redux for state management, and Material UI for responsive design.
- Integrated Firebase's real-time database and React Router for seamless navigation.

## CERTIFICATES

| | | |
|---|---|---|
| **Data Analytics** — *Google* | Completed data analysis techniques and tools. | 2023 |
| **HTML, CSS, JavaScript** — *SkillUp* | Gained skills for front-end web development. | 2023 |
| **Crash Python Course** — *Google* | Acquired foundational skills in Python programming. | 2022 |
| **SQL Developer** — *W3Schools* | Acquired the fundamental skills of SQL Development. | 2022 |

## HOBBIES

**Passionate Explorer**
Enjoy exploring new experiences, from learning languages to trying new hobbies.

**Geopolitical Enthusiast**
Explore global events and political decisions as a hobby, expanding understanding of world affairs.
